

# MAT220 Calculus with Analytic Geometry I

---

## Spring 2023 Syllabus

Section	Format	Credit Hours	Dates	Time	Days	Room
25196	Hybrid*	5	Jan 19 – May 12, 2023	12:00 – 2:05	Thursdays	CM-471

\*HYBRID CLASS: Blends classroom and online instruction.

Professor Jenifer Bohart

Email: [Jenifer.Bohart@scottsdalecc.edu](mailto:Jenifer.Bohart@scottsdalecc.edu)

Text / Voicemail: (480) 359-6806

Office: CM-423

*The information contained in this syllabus is subject to change at any time during the semester by the instructor. Any changes will be announced through the email you use to create your MOER account. **NOTE: Canvas will not be used for this class.***

### Required Items

#### MOER Account

MOER is a *free* online assessment tool that we will use for all online work and assignments for this class.

URL for MOER: <https://moer.maricopa.edu> Course ID: 15383 Enrollment Key: hybrid220

#### TI-83 or TI-84 Graphing Calculator

- You will be able to use this graphing calculator on all assignments and exams.
- Calculators that perform symbolic manipulation will **not** be permitted: examples include the TI-89, TI-92, TI-Inspire, HP-48, HP-48G, and Casio 9970.
- NOTE: If you are considering buying another brand of graphing calculator, such as the Casio or HP, please keep in mind that, although these calculators may have the same features as the TI-83 and TI-84, the interface will be different. This will make it much harder for you to follow along with the online video tutorials, all of which use the TI.

#### Course Textbook

- We will be using an open text for this course which can be viewed/downloaded for free, printed out, or purchased from Amazon.
- Students are NOT required to print or purchase a hard copy of the textbook.
- Links for viewing, downloading, and/or purchasing can be found in MOER

#### Technical Requirements

- A working email address that you check regularly.
- Reliable, high-speed Internet connection
- Headphones or working speakers connected to the computer
- Webcam (internal or external) and microphone

#### You will also need...

- A 3-Ring Binder to hold notes and class handouts
- Pencils with erasers
- Colored pencils/pens and highlighters
- Notebook paper and/or graph paper.

## Course Technologies

View the [Accessibility Statements & Privacy Policies](#) of technologies used in this course.

This course uses key Maricopa systems for course management and communication.

- Student Maricopa Gmail Account
- Maricopa Open Educational Resource Learning System (MOER)

Streaming Media/Audio/Video Tools

- This course delivers video lectures through YouTube.
- Instructor's virtual office hours will be conducted through Google Meet.

## MAT220 / MAT221– MCCC Official Course Competencies

### Prerequisites

Grade of C or better in MAT187, or satisfactory score on District placement exam.

### Course Competencies

1. Analyze the behavior and continuity of functions using limits.
2. State the definition and explain the significance of the derivative.
3. Compute the derivative using the definition and associated formulas for differentiation.
4. Solve application problems using differentiation.
5. State and explain the significance of the Fundamental Theorem of Calculus.
6. Compute anti-derivatives, indefinite and definite integrals of elementary functions.
7. Read and interpret quantitative information when presented numerically, analytically or graphically.
8. Compare alternate solution strategies, including technology.
9. Justify and interpret solutions to application problems.
10. Communicate process and results in written and verbal formats.

## SCC Resources Related to This Class

### SCC Math Center:

In-Person and Remote tutoring is available for free through the SCC Math Center. Instructions and hours are on the [SCC Math Center website](#).

### Online Tutoring through BRAINFUSE:

Online and hybrid students now have access to 24/7 online tutoring via Brainfuse. You may utilize up to 6 hours of online tutoring per semester for free. To access Brainfuse, go to [www.scottsdalecc.edu/students/tutoring/online-tutoring](http://www.scottsdalecc.edu/students/tutoring/online-tutoring)

### Academic & Student Support Services:

A variety of student services can be accessed online. Services are free to all registered SCC students. Refer to the [SCC College Resources Home Page](#).

### Accommodations:

Scottsdale Community College provides equal opportunity to qualified students. If you have a documented disability (medical, physical, learning, psychological, etc.) and wish to request disability-related accommodations to complete course requirements, contact Disability Resources & Services ([480-423-6517](tel:480-423-6517)). Course requirements cannot be waived, but reasonable accommodations may be provided based on disability documentation and course objectives.

### MEDIA LESSON

- The Media Lesson serves both as an introduction to the topic and as a resource for how you should aspire to write your solutions and express your mathematical work.
- Take careful notes as you watch the videos in these assignments. The more thorough your notes are, the more helpful they will be to you! Guided notes pages are available in MOER to help you follow along with the videos.
- You will have three tries for each problem in the Media Lesson assignment. After the third attempt, you can generate a new problem for full credit.
- **Media Lesson assignments are due at the beginning of class.** Give yourself plenty of time to complete these assignments and get help as needed **before the due date.**

### ONLINE HOMEWORK

- You will have three tries for each homework problem. After the third attempt, you can generate a new problem for full credit. Refer to your notes from the Media Lesson as needed. Work problem by problem to achieve a score of 100%. Additional video tutorials are provided in the unit folder.
- WRITE DOWN your work as you go through the online homework assignment. Keep this work neat and in order, and include notes to yourself on difficult problems. You are creating a resource for yourself that will help you as you take the Online Unit Test and prepare for exams. The more thorough your notes are, the more helpful they will be to you! Bring this supporting work to class.
- Do not wait until the last minute to start on the Online Homework! If you have questions, go to the SCC Math Center or visit me during office hours for help **before the due date.**

### ONLINE UNIT TEST

- You may use your calculator and notes on Online Tests, but ***no other assistance is permitted.***
- Online Tests are **timed**. You have one hour to complete a Unit Test. Any problems not submitted within this time limit will receive a score of zero.
- Online Tests are due on (or before) the dates indicated on the Course Schedule. Give yourself plenty of time to complete assignments and get help as needed **before the due date.**

### TEST CORRECTIONS (Required for every Online Test)

- At the top of a clean sheet of notebook paper (or graph paper), write your name, the test number, test score, and LIST all problems missed. For every missed problem, copy the question onto your paper and explain the error. Show as much work as possible and explain clearly where the mistake was. Then work the problem correctly, showing all possible work and (if an application problem) writing your answer in a complete sentence.
- Test Corrections are due at the beginning of the class following the test due date.
- If you get a perfect score on the online test, you automatically receive 100% on the test corrections.
- If you miss a test, you will automatically receive a score of 0% on test corrections.

## IN CLASS

- **REQUIRED: Turn all cell phones and other electronic devices OFF before the start of class. Your cell phone may not be used during class.**
- You are expected to be on time and prepared for class, be an active participant in group work and class discussions, and stay the full length of the class period. Otherwise, you will be marked absent. Being prepared means having the proper materials with you when you arrive in class (graphing calculator, notes, pencil, paper) as well as all assignments completed.
- In class, we will review the topics from the Media Lesson, and spend time working on more challenging problems.
- All assignments given in class will be collected and graded, and are due at the end of the class period. If you are late to class, absent, or leave class early, you will not receive credit for these assignments (unless arrangements in advance).

## Notes to the Student:

- START the online homework before coming to class. Try all of the problems and make notes to yourself on the difficult problems. Bring these notes with you to class.
- Due dates will not be extended. Give yourself plenty of time to complete assignments and get help as needed. **Do not wait until the last minute!!!**
- **If you have to miss a class**, message me as far in advance as possible, to ask for any handouts/reviews that will be done in class. It may be possible to turn these in early for full credit. If there are any written assignments due in class that day, scan them and email them to me **before** class starts. Please make sure all pages are right side-up and in order.
- Read instructions carefully! Work that does not meet specified criteria will lose points and may receive a score of zero. You will not be able to “redo” assignments. Always show your best work and ask questions before an assignment is due.
- All written work must be of collegiate quality: neat, organized, easy to read, and with all possible work shown. Otherwise, it will lose points, and may receive a score of zero. (Please use pencil!)
- Assignments due at the start of class will not be accepted at any other time during the class period. Have them ready to hand in when you arrive in class. If you arrive in class late, you will not receive credit for assignments that were to be handed in at the beginning of class.

## Proctored Exams

- Three Exams will be given in class. See MOER calendar for exam dates.

**EXAM 1:** Covers material from Units 1 – 4

**EXAM 2:** Covers material from Units 5 – 8

**FINAL EXAM:** Covers material from Units 1 – 12, with emphasis on Units 9 – 12

- **You may use your graphing calculator but NO NOTES on these exams.** Calculators that perform symbolic manipulation will **not** be permitted during an exam: examples include the TI-89, TI-92, TI-Inspire, HP-48, HP-48G, and Casio 9970. Your cell phone may not be used as a calculator during an exam.
- Your calculator program memory will be checked prior to each exam and may be cleared if anything suspicious is contained therein.
- **REQUIRED: Turn all cell phones, computers, and other electronic devices OFF before the start of every class. Your cell phone may not be used during any class. If you are wearing a “smart” watch, you will be asked to remove it before taking a test/exam.**
- If an emergency arises that is **beyond your control**, you must contact me **on or before** the day of the exam to arrange for a make-up. Make-ups are possible only in special circumstances and at the instructor’s discretion. All make-ups for Exams 1 and 2, if granted, must be completed *before* the next class meeting. All make-ups for the Final Exam, if granted, must be completed on or before Friday, May 12, 2023. Make-up exams must be completed in the SCC Testing Center. Failure to adhere to this policy will result in a grade of zero on the exam, and you may be withdrawn from the class.
- If you end up needing to test in the testing center, the information is below:

SCC Testing Center: By appointment only (no walk-ins). You must contact your instructor to initiate this process. Your instructor will submit a request to the Testing Center. The Testing Center will then send an email to your Maricopa Gmail address with a link to make your reservation. There is no fee. If you need to contact the Testing Center during this process, their phone number is (480) 423-6433. SCC Testing Center info: <http://www.scottsdalecc.edu/college-resources/testing-center>
- Students who miss an exam and do not make it up within the required time period may be withdrawn from the class.

## Grading Summary

Assignment	Percentage of Course Grade
Online Assignments: <ul style="list-style-type: none"> <li>• Syllabus Quiz</li> <li>• Precalculus Review</li> <li>• MAT220 Pretest</li> <li>• Media Lessons</li> <li>• Online Homework</li> <li>• Online Unit Tests</li> <li>• Online Exam Reviews</li> </ul> Written Assignments: <ul style="list-style-type: none"> <li>• In-Class Assignments</li> <li>• Test Corrections</li> </ul>	40%
Exam 1	20%
Exam 2	20%
Final Exam	20%

Grading Criteria	
90% - 100%	A
80% - 89.99%	B
70% - 79.99%	C
60% - 69.99%	D (Not passing)
0% - 59.99%	F (Not passing)

Note: Whether a student receives an F or a W depends on the communication with the instructor as to the student's individual situation.

The grade of I is exceptional and given only to students whose completed coursework has been qualitatively satisfactory but who have been unable to complete all course requirements because of illness or other circumstances beyond their control. The grade of I may be considered only for students who have completed at least 85 percent of the total coursework requirements with a grade of C or better. The student must request an I before the end of the semester. The faculty member retains the right to make the final decision on granting a student's request for an I, even though the student may meet the eligibility requirements for this grade. If the request is approved, the faculty member will determine a deadline for which work must be completed, and the grade the student will receive if the work is not completed on time.

## Class Policies

The following policies are specific to this course. Students are also responsible for the college policies included on the [Student Regulations](#) page of the Maricopa Community College District website.

### Computer Access and Email

- You will need regular access to a computer (with Internet access) in order to complete the online assignments that are part of this course.
- You are responsible for completing all assignments on time regardless of any computer or internet issues that may occur.
- You will need a working email address that you CHECK REGULARLY. I do send regular class announcements and information via the email you use to create your MOER account. It is your responsibility to provide a valid email address that you keep up with so that you can receive notifications of class announcements.
- **Response Time:** Students can expect a response time of 24 hours for the instructor to respond to messages sent through MOER.

### General Conduct

- Students are expected to conduct themselves in a responsible, mature, and academically honest manner. Be honest in everything you do. Do not present someone else's work as your own.
- Any student caught cheating on an assignment/exam will receive a grade of zero for that assignment/exam and is subject to disciplinary action in accordance with SCC policies. This may include withdrawal from the class.

### Attendance

- Because this is a hybrid course, "attendance" includes
  - In-person attendance at class meetings, **and**
  - Online attendance in MOER each week.
- You are expected to be on time and prepared for class. Being prepared means having the proper materials with you when you arrive in class (calculator, notebook paper, pencil) as well as all assignments completed. Otherwise you will be marked absent.
- You are expected to be an active participant in group work and class discussions, and stay the full length of the class period. Otherwise you will be marked absent.
- I will not spend class time going over material you have missed due to tardiness or absence.
- You are expected to spend time outside of class working on the online assignments. If a week goes by and you have not worked on the Online Homework assignment in MOER, this will count as one absence (unless all assignments for the week have been completed early).
- If you acquire more than two absences (in person or online), you may be withdrawn from the course.
- You are expected to complete all assignments prior to the date of any absence. **No late work will be accepted if you are absent or late to class.**

### **Expectations for Time Spent Outside of Class**

College students in the United States are expected to spend two to three hours doing coursework outside of class for every hour they spend in class. This is a five credit-hour course. Based on the federal credit hour definition, students should plan to spend a minimum of 15 hours on course content weekly.

### **Class Drop**

If you realize right away that this class is not for you, you will need to drop the class as soon as possible (within the first few days of class) in order to receive a full refund. Check the College Catalog for these important dates. You are responsible for dropping within the window to obtain a refund if you decide that is what you want to do.

### **Withdrawal Policies**

Students can withdraw from this class at any time prior to the Final Exam. If you find that you need to withdraw from the course, please speak to me about it first. I may be able to recommend other options or discuss alternative courses of action concerning future classes.

This is not a self-paced class. You have assignments and due dates and must make regular and consistent progress on course work and assignments. Students that stop participating and fail to respond to instructor MOER communication will be withdrawn from the class.

Please note that I will not give you an F if you merely stop participating. If you meet or exceed the limits listed below, then you may be withdrawn from the class and not receive a letter grade (A–F).

- Students who do not create their MOER account by 11:59PM on the class start date may be dropped from the class as a no-show. (This policy protects your refund for the course)
- Students who do not log in to MOER and make progress on the assignments for a 14-day period may be withdrawn from the class
- Students who acquire more than two absences (in person or online) may be withdrawn from the class.
- Students who miss an exam may be withdrawn from the class.
- Cheating on any assignment or exam may result in withdrawal from the course.
- Students who do not take the Final Exam may be withdrawn from the class. NOTE: **All** enrolled students who take the Final Exam will receive a letter grade (A, B, C, D, or F) for the class.

If circumstances are such that you cannot complete the semester, it is your responsibility to withdraw from the class. If you are withdrawn by your instructor for exceeding the allowable absences indicated above, the instructor is required by law to report when you last attended class.

---

**Information contained in this syllabus is subject to change during the semester at the discretion of the instructor. Any changes will be posted on the MOER site and an email will be sent out to all students through the email you use to set up your MOER account.**

**Students are responsible for the information contained in this syllabus. Students are responsible for college policies included in the College Catalog and the Student Handbook.**
