

**SCOTTSDALE
COMMUNITY COLLEGE**

A MARICOPA COMMUNITY COLLEGE

Course Information

Semester & Year:	Spring, 2024
Course Title:	College Mathematics
Course Prefix & Number:	MAT 141
Section Number:	16069
Credit Hours:	4
Meeting Days and Time:	Tuesdays from 10:30 am – 12:10 pm
Meeting Location:	CM 466
Start Date and End Date:	1/30/2024 - 5/10/2024

Course Format

The course format for this course is Hybrid. The course is a late start, 14-week course that runs from January 30th – May 10th.

Instructor Information

Instructor:	Tracey Haynie
Email:	tracey.haynie@scottsdalecc.edu
Phone:	480-423-6776
Office Location:	CM 422
Office Hours:	In person office hours are Tuesdays from 8 – 9 am, and Thursdays from 10:30 am – 12:30 pm. Online office hours are Mondays from 9 – 11am. If you'd like to meet during these online office hours, send me an email and I will send you a link to a live WebEx. Other times may be available by appointment.

Course Description

Working knowledge of college-level mathematics and its applications to real-life problems. Emphasis on understanding mathematical concepts and their applications. Topics include proportional reasoning, modeling, finance, probability, and statistics.

Prerequisites

An appropriate District placement, or a grade of C or better in (MAT052, MAT053, and MAT055), or (MAT055, MAT056, and MAT057), or MAT085, or MAT09+, or MAT103 or MAT114 or MAT115.

Course Competencies

1. Solve contextual problems using proportional reasoning and dimensional analysis. (I)
2. Demonstrate evidence-based decision making. (I-V)
3. Evaluate the reasonableness of an answer in the context of the problem. (I-V)
4. Demonstrate fluency with formulas, including evaluating and isolating variables. (II-V)
5. Model data using linear and exponential (and optionally other) equations. (II)
6. Compute and interpret empirical and theoretical probabilities and expected value of events. (III)
7. Calculate, display and interpret measures of central tendency, variability and position. (IV)
8. Use the Standard Normal Distribution to solve problems concerning normally distributed data. (IV)
9. Solve finance problems including loans, amortizations, investments. (V)

Texts and Course Materials

Required Text: College Mathematics, Scottsdale Community College, 4th edition OER, ISBN: 979-8-88672-003-7. The instructor HIGHLY RECOMMENDS you purchase a printed copy of the textbook (digital copies can be accessed for free on MOER). The printed copy of the textbook should be purchased from the SCC Bookstore.

Online Course Management System: This course uses MOER, an Online Course Management System developed by David Lippman and the State of Washington. All of the Online Homework will be accessed through this system. Grades will also be posted through this system. The software is free to use and can be accessed at <https://moer.maricopa.edu/>. Failure to enroll in MOER and complete the required syllabus quiz by the due date will result in being withdrawn from the course.

Calculator Requirement: A graphing calculator is required for this course. The instructor strongly recommends a TI-83+/TI-84+. If you choose not to purchase one, you can rent one for \$10 per semester from the Media Center in IT. Calculators with QWERTY keyboards or those which do symbolic algebra (such as the TI-92 or TI-89) are NOT allowed. You are expected to bring your graphing calculator to each class session. Your cell phone may NOT be used as a calculator during class or on exams. Sharing of calculators during quizzes or exams is NOT permitted.

Computer Access, Webcam, Microphone, and Email: You will need regular access to a computer with online capabilities in order to complete online assignments. You will also need a valid email address that you (and only you) check regularly.

Course Technologies

View the [Accessibility Statements & Privacy Policies](#) of technologies used in this course.

Maricopa Systems

This course uses key Maricopa systems for course management and communication.

- Canvas Learning Management System
- Student Maricopa Gmail Account
- Maricopa Open Educational Resource Learning System (MOER)

Synchronous Communication Tools

There is no synchronous portion to the course, but students who choose to meet with the instructor may require the use of web conferencing and/or other synchronous course tools.

- WebEx

Streaming Media/Audio/Video Tools

This course uses webcasting, lecture capture systems, YouTube, and/or other streaming media services.

- YouTube

Course Policies

The following are policies specific to this course. Students are also responsible for the college policies included on the [Student Regulations](#) page of the Maricopa Community College District website.

Course Progression: This course is NOT self-paced. Students are expected to keep up with the assignments and due dates. **Students who fall more than 1 chapter behind (or do not complete any online work over the course of 5 consecutive days) may be withdrawn from the course.** Also, **failure to enroll and/or complete the syllabus quiz in MOER by the due date will result in being withdrawn from the course.**

Withdrawing from the Course: This is not a self-paced class. You have assignments and due dates and must make regular and consistent progress on course work and assignments. **If you miss an Exam you will be withdrawn so be sure to stay in touch with your instructor. Students that stop participating and fail to respond to instructor MOER communication will be withdrawn from the class.**

Students can request to withdraw from this class (with a grade of W) at any time prior to taking the Final Exam. Students that take the Final Exam cannot earn a W for the class.

If a student withdraws or is withdrawn from the course, the instructor is required by law to report last day of attendance (LDA). This date is based upon actual work that is submitted and/or communication with the instructor about the class. Additional information on withdrawals can be found in the College Catalog.

Electronic Devices/Cell Phones: Use of cell phones, laptops, cameras, and other electronic devices when in class is a disruption for you, your fellow students, and your instructor. Please keep them off and out of sight during class. If you have an emergency situation requiring you remain in cell phone contact, please let the instructor know prior to the start of class. Also, no audio or video recording, or taking photos are allowed in class.

Generative Artificial Intelligence (AI) Policy

Generative AI can be defined as “a category of artificial intelligence (AI) algorithms that generate new outputs based on the data they have been trained on. Unlike traditional AI systems that are designed to recognize patterns and make predictions, generative AI creates new content in the form of images, text, audio, and more.” Some examples of generative AI tools include but are not limited to: ChatGPT, Google Bard, Microsoft Copilot, Stable Diffusion, GrammarlyGo, and Adobe Firefly.

In this class, all work submitted must be your own. The use of generative AI tools will be considered academic misconduct (see Administrative Regulation 2.3.11 1.B(b)) and will be treated as such. If you are unsure if the tool or website you are using is a generative AI tool, please contact the instructor for further clarification before using the tool or website.

Math/Science Tutor Center: Free tutoring, calculator assistance, and computers are available in person and online through the Math/Science Tutor Center (<https://www.scottsdalecc.edu/students/tutoring/math>). You will need to know your SCC student ID number in order to sign in.

Grading Standards & Practices

Grade Scale

Letter Grade	Points Range
A	90 – 100%
B	80 – 89%
C	70 – 79%
D	60 – 69%
F	0 – 59%

Grade Categories - Your final grade will be determined by the following graded events:

Mini Lessons	10%
Online Homework	15%
HW Quizzes	15%
Midterm Exam	30%
Final Exam	30%

Mini Lessons: For each chapter, you are expected to read the chapter, watch mini lesson videos online, and complete mini lesson problems in MOER. This will help you learn the material, and prepare you for the homework assignments. No late lessons are accepted. Mini lessons are worth 10% of your final course grade.

Online Homework: You are expected to complete weekly homework assignments. These assignments are completed online using MOER. It will benefit you to write out the homework problems, and show your work. Assignments and due dates will be posted in MOER. **No late homework will be accepted, but the 2 lowest homework assignment grades will be dropped.** The Online Homework is worth 15% of your final course grade.

Homework Quizzes: End of chapter homework quizzes will be given each week in class over each chapter and will cover the material you practiced in your homework assignments. They are worth 15% of your final course grade. Quiz dates will be announced in class and in MOER. **No make-up quizzes will be given, but the 2 lowest homework quiz scores will be dropped.**

Midterm and Final Exam: There will be a midterm exam and a final exam, each worth 30% of your grade (for a total of 60%). Make up exams will only be granted in extreme circumstances, with documentation, and must be approved BEFORE the missed exam. DO NOT wait until after the missed exam to contact me. The exams will be in person on the SCC Campus, during regular class time. The exam dates, times, and locations are posted in MOER on the course calendar. Exams not taken by the class exam date may be assessed a late penalty of 20%, or may be given a score of 0, depending on unique circumstances. Any exams not completed by 3 days past the due date will be given a score of 0.

Response Time

Your instructor will respond to posts on the discussion board, messages, and emails within 8 business hours (usually faster). Please understand that business hours are from 9 am to 5 pm, Monday through Friday. If you post a question or message, be aware that after 5 pm on Friday until Monday morning at 9 am is NOT part of business hours. Any holidays are also not considered part of business hours. Students can expect assignments to be graded within 5 business days after the due date.

Attendance Policy

SCC policy states that you may be withdrawn from the course by the instructor after three unexcused absences. Consistent tardiness will not be tolerated. If you arrive to class after class has started, you will be marked tardy. For every 3 class periods in which you are tardy, you will earn 1 unexcused absence.

Instructional Contact Hours (Seat Time)

This is a four (4) credit-hour course. Plan to spend at least four hours on learning course content, and at least eight hours on homework weekly. Since this is a late start course, we move a bit faster and the times listed above may increase.

Online Tutoring

SCC's tutors are available online to help with your courses. You may work with an SCC tutor remotely using Google Meet, your phone, or email. Visit the [SCC Tutoring & Learning Centers](#) page for detailed information on the five learning center's hours and procedures.

As much as possible, it is highly recommended that you utilize SCC tutors since they are more familiar with SCC coursework, instructor expectations, and assignments; however, if you need to work with a tutor outside regular hours, online and hybrid students now have access to a 24/7 online tutoring service called Brainfuse. Brainfuse provides online tutoring in a variety of academic subjects. Each student may utilize up to 6 hours of online tutoring through Brainfuse per semester, and has the option of requesting additional time if needed.

To access Brainfuse and begin working with a tutor:

1. Visit the [SCC Online Tutoring Services Through Brainfuse](https://www.scottsdalecc.edu/students/tutoring/online-tutoring) page (<https://www.scottsdalecc.edu/students/tutoring/online-tutoring>)
2. Click the **Visit a tutor online** button
3. Enter your MEID and password
4. Choose your topic and subject
5. Click the **Connect** button

Please use your time effectively and be prepared with your questions before you connect to a tutor. Tutors and students communicate in real-time so whatever you type, draw, or share on the screen, the tutor sees, and vice versa. You may also want to have screenshots ready if applicable. All Brainfuse sessions are recorded for review later.

Learning Tools and Your Privacy and Security

SCC utilizes a variety of software applications and web-based tools operated by third party vendors to support student learning. To allow student access to the application, site or tool, certain identifiable information may be required to establish a user name or password, and submit work and/or download information from these tools. Inherent with

all internet-based tools, there is a risk that individuals assume when electing to use these tools, as they may place information at risk of disclosure.

In this course, we will use MOER to complete or participate in assignments, activities and/or access course materials. [Accessibility Statements and Privacy Policies](#) for all tools used at SCC are available.

To use learning tools responsibly, please observe all laws and the Maricopa Community College District [Student Conduct Code](#), such as copyright infringement, plagiarism, harassment or interference with the underlying technical code of the software. As a student using a learning tool, you have certain rights. Any original work that you produce belongs to you as a matter of copyright law. You also have a right to the privacy of your educational records. Your contributions to learning tools constitute an educational record. By using the tool, and not taking other options available to you in this course equivalent to this assignment that would not be posted publicly on the internet, you consent to the collaborative use of this material as well as to the disclosure of it in this course and potentially for the use of future courses.

Students are responsible for the information contained in this syllabus, the Syllabus page in your Canvas course and the **College Policies & Student Services** page found in the First Steps module of your Canvas course. Students will be notified by the instructor of any changes in course requirements or policies.
