

## Course Information

Semester & Year:	Spring 2025
Course Title:	Ethics in Information Technology
Course Prefix & Number:	CIS111
Section Number:	32229
Credit Hours:	3.0
Start Date:	03/17/2025
End Date:	05/09/2025

## Course Format

The course format for this course is Online.

## Instructor Information

Instructor:	Nancy Dedakia
Email:	nancy.dedakia@scottsdalecc.edu
Phone Number:	480-423-6574
Office Location:	<a href="#">Virtual</a> ; CM410
Office Hours:	<a href="#">See Faculty Page</a>
Lab Hours:	<a href="#">See Faculty Page</a>

## Course Description

Ethical issues that arise as a result of increasing use of computers, and the responsibilities of those who work with computers, either as computer science professionals or end users. Critical inquiry and review of ethical challenges in information technology business, including professional and corporate responsibility, government regulation, fiduciary responsibilities of information, infringement of

intellectual property, security risk assessment, Internet crime, identity theft, employee surveillance, privacy, compliance, social networking, and the ethics of IT corporations.

## Prerequisites

None

## Course Competencies

- Describe a variety of different ethical theories.
- Describe professional business ethics and the complexities of making ethical judgments.
- Describe issues relating to corporate ownership, corporate governance, and responsiveness to corporate stakeholders.
- Explain how social media responsibility encompasses economic, legal, ethical, and privacy issues.
- Explain whistle-blowing and protection for whistle-blowers.
- Describe the major ethical challenges of operating in a healthcare environment using mobile and wireless technologies.
- Explain fiduciary responsibilities of private information.
- Describe issues with software and software liability.
- Explain cost/benefit analysis in information technology ethical decision-making.
- Describe the influence of government regulations as well as professional self-regulation and sanctions in ethical information technology decision-making.
- Explain intellectual property, copyright laws, and fair use doctrine.
- Define hate speech and defamation.
- Review contemporary issues related to workplace monitoring.
- Describe the major identity theft issues.
- Describe Information Technology security breaches and risk assessments.
- Define security policies within Information Technology.
- Describe professional codes of ethics for Information Technology professionals.
- Describe prevention, detection, and responses to Information Technology security attacks.

## Texts and Course Materials

During this course, we will be leveraging uCertify Online Course material. Majority of the assignments and reading material are based off of the online course.

- ETHICS-IN-AGE.AB1: Ethics for the Information Age Acc
- ISBN: 9781644592441
- Author: Ucertify
- Publisher: UCertify MMC
- \$139.50

## Course Technologies

View the [Accessibility Statements & Privacy Policies](#) of technologies used in this course.

- Canvas
- Web Browser
- Internet Connection
- Web Camera or Smartphone Camera
- Laptop/Desktop
- Microphone/Headset
- Access to uCertify Course material

## Maricopa Systems

This course uses key Maricopa systems for course management and communication.

- Canvas Learning Management System
- Student Maricopa Gmail Account
- Maricopa Open Educational Resource Learning System (MOER)

## Synchronous Communication Tools

This course implements the use of web conferencing and/or other synchronous course tools.

- WebEx (For On Demand Lectures)
- Google Meet (As Needed for One on One)
- Big Blue Button (for Office Hours)

## **Streaming Media/Audio/Video Tools**

This course uses webcasting, lecture capture systems, YouTube, and/or other streaming media services.

- YouTube
- WebEx

## **Student Assignment Tools**

This course requires students to participate in or submit assignments using desktop or cloud-based applications.

- Google Products
- Microsoft Office 365
- uCertify online Course Assignments

## **Plagiarism Checker Tool (Turnitin)**

Turnitin is a plagiarism check tool that matches text to a vast database of sources including the internet, published works, commercial databases and student work submitted to Turnitin in institutions internationally. Students must submit designated papers to Turnitin when instructed. Information and instructions for Turnitin are provided in the course. For your reference, read the [Turnitin Terms of Service](#).

## **Course Policies**

The following are policies specific to this course. Students are also responsible for the college policies included on the [Student Regulations](#) page of the Maricopa Community College District website.

## **Generative Artificial Intelligence (AI) Policy**

### **Opening Statement Regarding Generative Artificial Intelligence (AI)**

The World Economic Forum defines generative AI as “a category of artificial intelligence (AI) algorithms that generate new outputs based on the data they have been trained on. Unlike traditional AI systems that are designed to recognize patterns and make predictions, generative AI creates new content in the form of images, text, audio, and more.”

Some examples of generative AI tools include but are not limited to: ChatGPT, Google Bard, Microsoft Copilot, Stable Diffusion, GrammarlyGo, and Adobe Firefly.

## **No Generative Artificial Intelligence (AI) Allowed**

In this class, all work submitted must be your own. The use of generative AI tools will be considered academic misconduct (see Administrative Regulation 2.3.11 1.B(b)) and will be treated as such. If you are unsure if the tool or website you are using is a generative AI tool, please contact the instructor for further clarification before using the tool or website.

## **Late Work Policies**

Assignments are due by 11:59 pm on the assigned due date in Canvas. Late assignments will not be accepted after 48 hours of the original deadline. A 10% deduction in points will be applied per day for a total of two (2) days (maximum 20% deduction) to assignments submitted late. Assignments submitted more than 48 hours late will receive a score of zero (0).

The following types of assignments will not be accepted late:

- Extra credit assignments
- Exams
- Final Project

## **Academic Conduct**

In addition to the general college Academic Honesty policy stated in the Canvas course under the Course and College Policies section, the following additional policies apply to this course:

The highest standards of academic integrity are expected of all students. The failure of any student to meet these standards may result in suspension or expulsion from the College or other sanctions as specified in the Scottsdale Community College Academic Integrity Policy. Violations of academic integrity include, but are not limited to, cheating, fabrication, tampering, plagiarism or facilitating such activities. Specific examples of academic misconduct relating to this course include:

- Copying another student's work and turning it in as one's own.
- Submitting another student's file as your own.
- Working jointly on an assignment, with each student turning in a copy of the joint product, creating the impression that each student completed the work independently.

Each student must complete his/her own work on his/her own computer with his/her own data files. **If you are caught turning in another student's work, both students will receive a zero and may be withdrawn for academic misconduct from the class with a grade of 'Y'. Cheating on an exam will result in immediate withdrawal for academic misconduct from the course with a grade of 'Y'.**

This is an ethics course, and you may not always agree with other students in the course but all discussions must remain respectful for diverse viewpoints, is constructive in disagreements, and inclusive of other students. Be mindful of the diverse identities, backgrounds, and experiences within the class. Statements that could marginalize or harm others based on race, gender, sexuality, religion, ability, or other identities are not acceptable. Approach discussions with empathy and an awareness of how your words may impact others. We strive for a classroom atmosphere where all participants feel comfortable expressing their ideas, knowing that they will be met with respect. Any form of discriminatory or disrespectful behavior will not be tolerated, and actions will be taken to address such issues and must result in being withdrawn from this course.

## **Grading Standards & Practices**

### **Grade Scale**

Letter Grade	Points Range
A	90 – 100%
B	80 – 89%
C	70 – 79%
D	60 – 69%
F	0 – 59%

### **Final Grade Calculation – Grade Weighting**

Although the total amount of points earned in the class may vary, your final grade will be weighted as follows:

<b>Requirement</b>	<b>% Weight of Final Grade</b>
Assignments	40%
Discussion Questions	5%
Exams	30%
Projects	25%
<b>Total</b>	<b>100%</b>

## **Student/Instructor Interaction**

In this course, you can expect regular and substantive interaction (RSI) that aligns with Scottsdale Community College’s mission to provide challenging and supportive learning experiences and the US Department of Education’s requirement for regular and substantive interaction (RSI) for online courses. My commitment to your success includes the following:

- Being available during regularly scheduled office hours as stated in the faculty page.
- Providing group or individual feedback regularly on assignments.
- Promptly responding to student questions about the course sent via Canvas inbox.
- Regularly posting announcements about the course content and activities which will include key information about the course.
- Monitoring your academic progress and communicating concerns, as needed.

## **Response Time**

Students can expect a response time of 24 to 48 business hours or less for the instructor to respond to messages sent via the Canvas Learning Management System or email. Students can expect assignments to be graded within 7 days of the assignment’s due date. The expectation is for the student to monitor messages within Canvas as this will be the primary method for communication for this course.

## **Attendance Policy**

Participation in this course is required. It will affect your grade. Discussion questions are assigned weekly along with questions regarding the recorded lecture. An absence in this online course is considered not responding to discussion questions regarding the recorded lecture by the due date. After 2 absences or 2 weeks of missing discussion questions (excused or unexcused), you may be withdrawn from this class. If you decide to drop this class, you must submit a Withdrawal Form to

withdraw officially.

## Withdrawal Policy

In addition to the general college Withdraw policy, the following additional withdraw policies apply to this course:

- Students must participate in this online course within the first three (3) days of the start date or they will be withdrawn.
- After two weeks of not answering discussion questions based on the recorded lecture, you may be withdrawn from the class. Extreme personal or medical crisis will be evaluated on a case by case basis and written proof is required.
- Students who do not have the copies of the required materials (access to theuCertify course) by the end of the 2<sup>nd</sup> week of the course will be withdrawn.
- Failure to complete the CIS111 Policy Acknowledgement and syllabus assignment with 100% mastery within the required timeframe will be withdrawn from this course.
- Failure to meet Academic Integrity and Conduct requirements and respectfully discussion requirements as stated within the syllabus may result in being withdrawn from this course.
- The official date of withdrawal is the last date of attendance as determined by the student's withdrawal or as reported by the instructor. The official date of withdrawal will determine the degree of refund, if any. See Refund Policy in the [SCC College Catalog](#).

## Instructional Contact Hours (Seat Time)

This is a three (3) credit-hour course. Plan to spend at least three hours on course content or seat time (direct instruction) and six hours on homework weekly. Accelerated courses will require additional time per week.

## Online Tutoring

SCC's tutors are available online to help with your courses. You may work with an SCC tutor remotely using Google Meet, your phone, or email. Visit the [Tutoring & Learning](#)

[Centers](#) page for detailed information on the five learning center's hours and procedures.

As much as possible, it is highly recommended that you utilize SCC tutors since they are more familiar with SCC coursework, instructor expectations, and assignments; however, if you need to work with a tutor outside regular hours, online and hybrid students now have access to a 24/7 online tutoring service called Brainfuse. Brainfuse provides online tutoring in a variety of academic subjects. Each student may utilize up to 6 hours of online tutoring through Brainfuse per semester, and has the option of requesting additional time if needed.

To access Brainfuse and begin working with a tutor:

1. Visit the [SCC Online Tutoring Services Through Brainfuse](https://www.scottsdalecc.edu/students/tutoring/online-tutoring) page (<https://www.scottsdalecc.edu/students/tutoring/online-tutoring>)
2. Click the **Visit a tutor online** button
3. Enter your MEID and password
4. Choose your topic and subject
5. Click the **Connect** button

Please use your time effectively and be prepared with your questions before you connect to a tutor. Tutors and students communicate in real-time so whatever you type, draw, or share on the screen, the tutor sees, and vice versa. You may also want to have screenshots ready if applicable. All Brainfuse sessions are recorded for review later.

## CIS Study Lab

We urge CIS students to utilize the **CIS Study Lab**. This lab is used for hands-on classwork and is staffed with CIS instructors. Any SCC student currently enrolled in a CIS course may use this lab. A detailed lab schedule with instructor-assigned times and locations is posted in your Canvas course.

## Learning Tools and Your Privacy and Security

SCC utilizes a variety of software applications and web-based tools operated by third party vendors to support student learning. To allow student access to the application, site or tool, certain identifiable information may be required to establish a user name or password, and submit work and/or download information from these tools. Inherent with all internet-based tools, there is a risk that individuals assume when electing to use these tools, as they may place information at risk of disclosure.

To use learning tools responsibly, please observe all laws and the Maricopa Community College District [Student Conduct Code](#), such as copyright infringement, plagiarism, harassment or interference with the underlying technical code of the software. As a student using a learning tool, you have certain rights. Any original work that you produce belongs to you as a matter of copyright law. You also have a right to the privacy of your educational records. Your contributions to learning tools constitute an educational record. By using the tool, and not taking other options available to you in this course equivalent to this assignment that would not be posted publicly on the internet, you consent to the collaborative use of this material as well as to the disclosure of it in this course and potentially for the use of future courses.

Students are responsible for the information contained in this syllabus, the Syllabus page in your Canvas course and the **College Policies & Student Services** page found in the First Steps module of your Canvas course. Students will be notified by the instructor of any changes in course requirements or policies.
