

MAT114 College Algebra Prep Spring 2025 Syllabus

Professor Daniel J. Nearing

Email: daniel.nearing@scottsdalecc.edu

Office Hours: Virtual – by appointment (WebEx link posted in MOER).

Course	Sections	Format	Start Date	End Date	Credit Hours
MAT114	29819	Online	Jan 13	May 9	4

Canvas will not be used for this class.

The information contained in this syllabus is subject to change at any time during the semester by the instructor. Any changes will be announced through the email you use to create your MOER account.

Course Technology and Required Items

MOER Account

MOER is a *free* online assessment tool that we will use for all online work and assignments for this class. URL for MOER: <https://moer.maricopa.edu>

TI-83 or TI-84 Graphing Calculator

A Graphing calculator is required for this course. Videos in the course that use a calculator always use a TI-83 or TI-84 calculator so either is highly recommended.

View the [Accessibility Statements & Privacy Policies](#) of technologies used in this course.

Maricopa Systems

This course uses key Maricopa systems for course management and communication.

- Student Maricopa Gmail Account
- Maricopa Open Educational Resource Learning System (MOER)

Streaming Media/Audio/Video Tools

This course delivers video lectures through YouTube. Instructor office hours will be conducted through Zoom.

Student Workbook: Foundations for College Algebra, 1st Edition (ISBN 978-1-63434-927-7)

OPTION 1: Download for free from MOER and print pages as needed.

OPTION 2: Purchase a printed copy from the SCC Bookstore (around \$23)

Other Required Materials

- 3-ring binder to hold your notes and Student Workbook pages
- Pencils, erasers, highlighters, and colored pens
- Notebook paper or graph paper

Technical Requirements

Students are responsible for meeting these technical requirements in order to begin this class:

An email address that you check regularly (use this when you set up your MOER account)

Reliable, high-speed Internet connection

Webcam (internal or external) and microphone (only if the student needs to take an exam online)

Headphones or working speakers connected to the computer (only if the student needs to take an exam online)

MAT114 – MCCCD OFFICIAL COURSE DESCRIPTION AND COMPETENCIES

Maricopa Community College District Official Course Description

Proper use of function notation, average rate of change of functions, and evaluating arithmetic and algebraic expressions. Analysis of linear and quadratic equations, and their applications; graphs of linear and quadratic functions; operations on polynomial expressions.

Competencies:

1. Perform operations to evaluate expressions that include integers, fractions, decimals, exponents, and radicals, including the order of operations.
2. Evaluate arithmetic and algebraic expressions.
3. Simplify expressions involving integer and rational exponents.
4. Perform operations on polynomial expressions.
5. Write polynomials in factored form.
6. Graph and determine domain, range, and other key characteristics of functions, including linear and quadratic functions.
7. Demonstrate the proper use of function notation.
8. Determine and interpret the average rate of change of linear and quadratic functions.
9. Solve linear and quadratic equations (including those with complex solutions) using multiple methods and represent solutions exactly and approximately.
10. Solve linear inequalities in one variable and represent solutions graphically, algebraically, and in interval notation.
11. Model, analyze and interpret real-world problems using linear and quadratic functions.
12. Given sufficient information or data, write a linear equation.
13. Solve systems of linear equations in two variables.

Is MAT114 the correct class for you?

- Making sure you are in the correct math class is extremely important! This MAT114 class is intended for students who are on a pathway that includes College Algebra (MAT15+). MAT114 (this class) is College Algebra Prep. After taking MAT114, you will be eligible to next take College Algebra (MAT150, MAT151, MAT152, or MAT155).
- MAT114 combines Arithmetic, Introductory Algebra, and Intermediate Algebra to prepare you to take College Algebra. This class is going to be intense and challenging, as it combines the content of three courses into one semester. To be successful in this course you must:
 - Keep up with all assignments
 - Be aware of all due dates and exam dates
 - Make sure you understand the problems, not just that you can get correct answers
 - Get help as needed
 - Be prepared to spend time learning concepts and working on mathematics problems. Just because this course is online does not mean it is easier than a traditional class.
- If you are on a pathway that goes through College Math (MAT140, MAT141, MAT142, or MAT145) then you should NOT be enrolled in this class. If your math pathway leads you through College Math, then you need to switch not into a MAT103 College Mathematics Prep class, or contact SCC Advising to see if you might be able to enroll in a College Mathematics class directly, depending on your placement test score.

SCC RESOURCES RELATED TO THIS CLASS

SCC Math Center: On-campus tutoring is available for free through the SCC Math Center. Instructions and hours are on the [SCC Math Center website](#).

Dedicated Tutor (Remote tutoring): **We are fortunate to have a tutor dedicated exclusively to this course!** The dedicated tutor will assist students with mathematics questions and host live remote tutoring sessions. More information is provided in MOER.

Online Tutoring through BRAINFUSE: Online and hybrid students now have access to 24/7 online tutoring via Brainfuse. You may utilize up to 6 hours of online tutoring per semester for free. To access Brainfuse, go to www.scottsdalecc.edu/students/tutoring/online-tutoring

Academic & Student Support Services: A variety of student services can be accessed online. Services are free of charge to all registered SCC students. Refer to the [SCC College Resources Home Page](#).

Accommodations: Scottsdale Community College provides equal opportunity to qualified students. If you have a documented disability (medical, physical, learning, psychological, etc.) and wish to request disability-related accommodations to complete course requirements, contact Disability Resources & Services ([480-423-6517](tel:480-423-6517)). Course requirements cannot be waived, but reasonable accommodations may be provided based on disability documentation and course objectives.

Course Policies

The following are policies specific to this course. Students are also responsible for the college policies included on the [Student Regulations](#) page of the Maricopa Community College District website.

EXPECTATIONS FOR TIME SPENT OUTSIDE OF CLASS

This is a 16-week, 4-credit-hour online class. Thus, **students should expect to spend an average of 11 hours each week** working on the required online assignments that are part of this course.

Unit Structure

The topics for this course have been divided into Units which are due on the dates indicated on the Course Schedule. Give yourself plenty of time to work through the problems, take good notes, and get help as needed. Each Unit will consist of an online Lesson assignment which must be completed before taking the Online Test. These are explained below.

LESSONS

- The Online Lessons in MOER consist of video tutorials and practice problems.
 - **Video Tutorials** serve both as an introduction to the topic and as a resource for how you should aspire to write your solutions and express your mathematical work. Take careful notes as you watch the videos in this assignment. The Media Lesson examples in the Student Workbook are identical to those in the Lesson videos, so **use the workbook to help you record your notes from the videos**. Any notes you take are for your own use (you will not turn in the Media Lesson pages from the workbook). The more thorough your notes are, the more helpful they will be to you!
 - **Online Exercises** follow each video in the Lesson assignment. You will have three tries for each of these problems. After the third attempt, you can generate a new problem for full credit. Refer to your notes as needed. Work problem by problem to achieve a score of 100%.
- WRITE DOWN your work as you go through the Lesson assignment. Keep this work neat and in order, and include notes to yourself on difficult problems. These notes will be very helpful as you work through the online Test and prepare for exams.
- Lesson assignments will remain open for score improvement until the end of the course.

TESTS

- Online Tests for each lesson will become available after completing a portion of the Lesson for that Unit.
- Online Tests consist of problems similar to those in the Lesson. You may use your calculator and notes on the online tests, but ***no other assistance is permitted***.
- **Online Tests are TIMED**. You will have one hour (60 minutes) to complete each test, so be sure to have your notes and calculator ready before you begin. Problems not completed within this time limit will receive a score of zero.
- **Online Tests are due on the dates indicated on the course schedule**. Students who miss more than two online tests may be withdrawn from the class.

- **Late Passes for Online Tests:** If you miss a test deadline, you can apply a Late Pass to complete the test for full credit.
 - A Late Pass will extend the due date by 1 day (24 hours from original due date).

Proctored Exams

- **Two Proctored Exams** will be given during the semester. Both exams must be completed in order to earn a grade (A, B, C, D, or F) for this course.
 - **Midterm Exam:** Units 1 – 6
 - **Final Exam:** Covers all course material, with emphasis on Units 7 – 12
- There is a required review assignment for each exam.
- **You may use your graphing calculator on all exams.**
 - Calculators that perform symbolic manipulation will **not** be permitted during any exam: examples include the TI-89, TI-92, TI-Inspire, HP-48, HP-48G, and Casio 9970. Your cell phone may not be used as a calculator during an exam.
 - Your calculator program memory will be checked prior to each exam and may be cleared if it contains any programs, notes, or formulas related to exam topics.
- You are required to present **photo ID** in order to take an exam. If you do not have photo ID, you will not be allowed to take the exam. There can be no exceptions to this policy.
- Due dates for these exams are posted in MOER. Due date extensions for exams will only be granted in extreme circumstances and must be approved by the instructor BEFORE the missed exam. DO NOT wait until after the missed exam to contact me. Students who do not make other arrangements in advance and do not complete an exam by the due date may earn a withdrawal from the course.
- **Make-up Policy:** To take an exam late, a student must have extenuating circumstances and must contact me by the day of the exam! I count all missed exams as a 0%. It would then be very unlikely for the student to pass

Late Passes

If you miss a unit test deadline, you can apply a Late Pass to complete the assignment for full credit. Each Late Pass will extend the due date by one day. Multiple late passes can be applied if more time is needed. (65,535 Late Passes available during the semester)

There are no penalties for problems/assignments completed while using a late pass. Late Passes may not be used after the end date of the course. The midterm exam and final exam must be taken by the deadline that is posted in MOER.

Proctoring Options for Exams

A Google Form will be shared with you within the first few weeks of the course where you will let me know which ONE of the 3 options you will use to take the two proctored exams (midterm and final). If none of the options work for you, there is also a choice on the form to let me know that as well.

Option 1: Instructor-Proctored Exam (Recommended and FREE)

Exams will be given in person on the SCC campus. Dates will be posted in MOER. Bring your calculator, pencils, erasers, [and photo ID](#) with you when you come to take these Exams. You will need to know your MEID (not your student ID), and password to be able to log in to school computers. This is the same password as you use to log into your school Gmail account.

Option 2: SCC Testing Center (FREE)

If you are unable to take an exam at these scheduled times on the SCC campus, you can take the exam in person at the **SCC Testing Center** on or before the due date. The SCC Testing Center is free and by appointment only (no walk-ins). Contact instructor for more information. Bring your calculator, pencils, erasers, [and photo ID](#) with you when you come to take these Exams. Arrangements for the Testing Center must be made by the instructor **at least one week in advance** of the scheduled exam. Here is a link to the [SCC Testing Center Website](#) for more information. You will need to know your MEID (not your student ID), and password to be able to log in to school computers. This is the same password as you use to log into your school Gmail account.

Option 3: Online via ProctorU (Fees apply)

ProctorU is not free and students pay all of the associated fees. You can use an online proctoring service called **ProctorU** to take these exams remotely on or before the due date. ProctorU allows test-takers to take a supervised exam on demand or by appointment. **ProctorU fees vary based on how far in advance your session is scheduled.** During the testing session, you will be supervised live through a webcam and the proctor will have access to your computer using screen sharing technology as you take your exam. **Please note that ProctorU requires a room scan prior to all testing sessions.** If the room scan is not acceptable to the student, then other arrangements besides ProctorU must be made.

Students must [create an account](#) with ProctorU and [download the Guardian Browser](#) onto a personal computer. You should [test your equipment](#) before taking the exam to ensure no difficulties will arise on exam day. For your reference, read the [System Requirements for ProctorU](#) and [ProctorU Terms of Service](#). ProctorU is a fee-based service.

[ProctorU - Test-Taker Information](#) [Student Guide](#)

Grading

Assignments	Percentage of Course Grade
Orientation Assignments Lessons Tests Exam Reviews	50%
Midterm Exam	25%
Final Exam	25%

Grading Criteria	
90% - 100%	A
81% - 89.99%	B
71% - 79.99%	C
61% - 69.99%	D (not passing)
0% - 59.99%	F (not passing)

Final grades are calculated using the scale above. FINAL GRADES ARE NON-NEGOTIABLE. It is unethical to reach out at the end of the semester and request "a few extra points" or discuss the consequences of not earning the grade you want in the class.

Messages of this nature will not receive a response.

Note: Whether a student receives an F or a W depends on the communication with the instructor as to the student's individual situation.

Grade of Incomplete: The grade of I is exceptional and given only to students whose completed coursework has been qualitatively satisfactory but who have been unable to complete all course requirements because of illness or other circumstances beyond their control. The grade of I may be considered only for students who have completed at least 85 percent of the total coursework requirements with a grade of C or better. The student must request an I before the end of the semester. The faculty member retains the right to make the final decision on granting a student's request for an I, even though the student may meet the eligibility requirements for this grade. If the request is approved, the faculty member will determine a deadline for which work must be completed, and the grade the student will receive if the work is not completed on time.

Withdrawal Policies

Students can withdraw from this class at any time prior to the Final Exam. If you find that you need to withdraw from the course, please speak to me about it first. I may be able to recommend other options or discuss alternative courses of action concerning future classes.

NOTE:

- **This is not a self-paced class. You can work ahead, but do not fall behind!** You have assignments and due dates and must make regular and consistent progress on course work and assignments. Students that stop participating and fail to respond to instructor MOER communication will be withdrawn from the class.

Please note that I will not give you an F if you merely stop participating. If you meet or exceed the limits listed below, then you may be withdrawn from the class and not receive a letter grade (A–F).

- Students who have not created their MOER account and completed all Orientation Modules and the syllabus quiz by 11:59PM on the course start date may be dropped from the class.
- Students who do not complete the *Unit 1 Online Test* by the due date may be dropped from the class.
- Students who do not log in to MOER and make progress on the assignments for a 7-day period may be withdrawn from the class (unless the current assignments have been completed early).
- Cheating on any assignment or exam may result in withdrawal from the course.
- Students who do not make other arrangements in advance and do not take an exam at the scheduled time may earn a withdrawal from the course.

If you go 7 consecutive days without attending this course, I am required by law to withdraw you. Since this course is online, the following is a list of activities that constitute online class “academic attendance” and “attendance at an academically-related activity” for purposes of determining the last day of attendance according to 34CFR668.22(l)(7)(i):

- (1) Physically attending a class where there is an opportunity for direct interaction between the instructor and students;
- (2) Submitting an academic assignment;
- (3) Taking an exam, an interactive tutorial, or computer-assisted instruction;
- (4) Attending a study group that is assigned by the institution;
- (5) Participating in an online discussion about academic matters; and
- (6) Initiating contact with a faculty member to ask a question about the academic subject studied in the course

The following are policies specific to this course. Students are also responsible for the college policies included on the [Student Regulations](#) page of the Maricopa Community College District website.

Computer Access and Email

- You will need regular access to a computer (with Internet access) in order to complete the online assignments that are part of this course.
- You are responsible for completing all assignments on time regardless of any computer or internet issues that may occur.
- You will need a working email address that you CHECK REGULARLY. I do send regular class announcements and information via the email you use to create your MOER account. It is your responsibility to provide a valid email address that you keep up with so that you can receive notifications of class announcements.
- Response Time: Students can expect a response time of 24 hours for the instructor to respond to messages sent via email or MOER.

General Conduct

- Students are expected to conduct themselves in a responsible, mature, and academically honest manner. Be honest in everything you do. Do not present someone else's work as your own.
- Any student caught cheating on an assignment/exam will receive a grade of zero for that assignment/exam and is subject to disciplinary action in accordance with SCC policies. This may include withdrawal from the class.

Class Drop

If you realize right away that this class is not for you, you will need to drop the class as soon as possible in order to receive a full refund. Check the College Catalog for these important dates. You are responsible for dropping within the window to obtain a refund if you decide that is what you want to do.

Land Acknowledgment

SCC acknowledges the land on which we are situated today as the traditional land and home of two distinct tribal nations: the Onk Akimel O'odham (Pima) and the Xalychidom Piipaash (Maricopa) people. We take this opportunity to thank the original caretakers of this land. We offer our respect to their Elders and to all O'odham and Piipaash people of the past, present and future.

Students are responsible for the information contained in this syllabus, the Syllabus page in your Canvas course and the **College Policies & Student Services** page found in the First Steps module of your Canvas course. Students will be notified by the instructor of any changes in course requirements or policies.
